During my residence in this city I have met with numerous cases in which the suffering have unfortunately placed themselves under the charge of those who are iguorant of the first principles of medicine, and whom it has been only by the utmost care and attention I have been enabled to cure. To all such as have been suffering under unsuccessful treatment, I would offer my services, guaranteeing that I can do all that is possible for experience and a thorough knowledge of diseases in all stages and forms to accomplish.

TO THE LADIES—Dr. G. Is agent for M. La Croux's French Freventive Powders, by which those who, from any cause, deem it necessary to avoid conception, can do so, without incurring danger to health or constitution; price \$2. Also, agent for Madame Oaprausi's Female Monthly Pills, a esfe and effectual remedy for Irregularities, Obstractions, &c.; price \$1. The Democracy of the Third and Fourth Wards will meet at the Hotel De Raine, on Friday evening the 8th inst., at 7 o'clock, for the parpose of appointing delegates to the convention to be held at Lagrange, to nominate a Democratic eandidate for Congress. A full attendance of the Democrats of the two Wards is earnestly desired. STERLING'S GAS REGULATOR .-- We have had one

f these machines in operation in our office for the past week, and last night it was submitted to s strict test, to show its gas saving qualities: First, 25 feet of gas were burned through the regulator, and the time taken, which was 15 mirutes, being at the rate of 100 feet perhour. Then
a weight was placed upon the regulator, which
gives the burners the same pressure as they would
receive were the regulator not attached, and 25
feet of gas were burned in 12 minutes—equal regulator, and the time taken, which was 15 mirgives the burners the same pressure as they would feet of gas were burned in 12 miantes-equal to 125 feet per hour-showing a saving of gas of 25 per cent. In private dwellings or stores, where it is not necessary to have so large a light, we understand that even a greater saving is accomplished. Then, too, the light itself is much improved. There is no flickering or blowing at the burners. The machine regulates the pressure at the meter. and it is always uniform at the ourners, whether one hurner or 100 are in use at the same time. The secret of the saving effected in the consumption of gas through the regulator seems to be that the machine is guaged to allow gas to pass through it at precisely that pressure, which will ensure its perfect combustion. There is no waste of gas, occasioning a blue flame and blowing, and the press-

WATCHMAN SALE HELD TO BAIL. - By referring to the l'olice report, it will be seeu that watchmau Charles Sale has been held to \$1,500 hail to answer a felony, in attempting the life of Wm. Gilmore For the defense it was urged that Gilmorehad threatened to take the life of Sale "on sight." They mei; Gilmore saw Sale, and actually ran across the street to avoid him, which confules the murderous plea set up, that Gilmore threatened to kill the man "on sight."

Judge Johnston in summing up the case, remarked that he was not surprised to hear the assertion, so often made, that parties did not want their cases prosecuted, as the law in this city is imper ative. He, however, said he was determined to have the law respected, and in t is case saw noth ing whatever to excuse Watchman Sale. There was o testimony that the accused was implicated, and t was not known that he was ever accused of firing at Alex. Gilmore; that it would have been an easy matter for him to have had an investigation of the rumor that he was threatened. 11:, a peace officer, had grossly violated the penal laws in attempting the life of a man, who had made no demonstration against him, but had actually got out of his way hy running.

OUICE TIME TO THE EAST - DESIRABLE ROUTE. Among the swiftest and most desirable routes to the East is via the Cincinnati, Columbus, Cleveland and Lake Shore Lines. The tirst train leaves Cincinnati at 6 o'clock in the morning, always in time for passengers by the mail boats from this city to be ticketed through to New York in 311, hours. By this train passengers are ticketed via Cleveland and the Lake Shore, travelling in comment of careful, attentive officers. They never miss connections, or are behind time as they run three daily through trains. The route via Little Minmi, Cleveland, and Columbus, Lake Shore, and New York Central railroads is now supplied with sleeping cars, and the time tables are so arranged that the passenger gets the benefit of a full night's rest. This arrangement applies to all

through trains. H. C. Marshall, Esq., the accomplished general ticket ageut of the Cincinnati, Columbus, and Cleveland railroad Co., was in the city yesterday ou a business trip in reference to the road He is on his way to Saint Louis and New Orleans.

THEATER .- There was a large audience and Iwo excellent pieces at the theater last night. In the Merchant of Venice," Miss Vandenbott as Portia, and Mr. Swinbourne as Shylock, were peculiarly excellent. In "Stiil Waters Ruu Deep," Mr. Swinbourne elicited frequent applause as John Mildway. It was an excellent piece of acting. Mr. Lorton and Mrs. Gilbert were, as usual, perfect. Mr. Dickson, as Capt. Hauxley. was admirable, and Miss Ida Vernon's rendition

of Emily was above all praise. To-night Miss Vandenhoff takes her henefit, which occasion will be presented decidedly the best bill of the season, consisting of "The Lady of Lyons," and "the Stranger," hesides dancing by Mr. Gilbert and Miss Peters. Miss Vanden denhoff is a ludy of genius, and a first-rate actress. She has afforded our citizens a great deal of rational enjoyment, and deserves a good house or

THE NEW CENT POISONOUS .- It is stated that THE NEW CENT POISONOUS.—It is stated that several instances have occurred in different parts of the country where children have died from the effects of poison taken into the system by swallowing the new nickel cent. As this coin is small and easily swallowed, there is great danger in allowing young children to have them in their possession. The metal which composes it has had a fatal effect, and would seem to be poisonous.

Wounding Wm. Gilmork.—Charles Sale, a watchman, was presented on the charge of shooting Wm. Gilmore on the street, Tnesday afternoon.—The charge was admitted without celling for proof, and witnesses called for the defense. The first brought to the stand was J. B. Bayne, another watchman, who testified that he was at the house of Alex. Gilmore the night previous, in the room of young Alex. Gilmore who was wounded. At a late hour of the night, Wm. Gilmore came into the room very much excited, and kneeling down by the hedside of his wounded brother, awore to kill the man who had shot his hrother, if he had to follow him to the end of the earth.—Snbsequently a sister of Gilmore stated to this one of the parties. This conversation was held after Wm. Gilmore had left the room. The witness further testified that Wm. Gilmore did not ness further testified that Wm. Gilmore did not threaten any one in particular, and did not at any time call the name of Sale, the accused.

John Lamborn was called and sworn.—He testified that he was in the house of Gilmore when William came home. The latter was highly ex-cited, and commenced crying over his wounded brother, and then swore to kill the man on sight brother, and then swore to kill the man on signs, who had shot him. His father, mother, and sisters surrounded him, and took him from the room. The witness remained in the room two hours or more after this occurrence, and did not hear the name of Sale, the accused, called at any time. When Wm. Gilmore came into the room he was so much excited that he actually hurst the door When Wm. Gilmore came into the room he was so much excited that he actually burst the door

James Walker was next called, and testified to being present when Sale shot Wm. Gilmore. He was with Sale on the south side of Jefferson street, and when above Brook street, the accused saw smoking.

The agents for this useful machise have their headquarters at T. Williams & Co.'s, gas fitters, on the north side of Market, between Third and Fourth streets, and if any of our citizens wish to gun from under his coat, calling witness to fol-low him. Wm. Gilmore then started across the street to get out of the way, when Sale, with his gun, came out, and running up the street opposite to Gilmore, who was retreating, took aim, and fired. The witness saw no demonstration whatever on the part of either Gilmore or Red on meeting Sale, and when the latter fired the former was retreating, and held his hand up, and had his face partially turned.—Sale had a double-barrelled gun

Sale had a double-barrelled gun.
The defence here closed, and for the prosecution
Dr. Mat. Pyles and Alex. Gilmore, Sr., were introduced to state the condition of Wm. Gilmore. Dr. Piles stated that the wounded man had been shot in the right corner of the month, evidently a huckshot, which had knocked out three of his teeth, and cut his tongue; another shot took effect in the left leg, just above the knee joint. The wound in the mouth had very much swollen the

tongue of the wounded man, and mortification may ensue and cause death.

Alex. Gilmore, Sr., was next introduced and testified that the name of sale was never called or used in the house, that all his family knew Sale intimately, that he had been frequently in the house, and no threat was made against him The witness further stated that he had no desire whatever to prosecute Sale. The case was then submitted to the Court, and Sale was held to bail n the sum of \$1,500 to answer a charge of felony. Harrison Sale and Win. Stewart went his bail. The Murder of Penner and the Wounding of WATCHMAN TILLER, &c.—This case was called up again in rather a desultory way, the City Attorney appearing to consider the wounding of Tiller the only case in point, the murder of Pender a matter of no consideration. In this connection Jas. Macdonald is presented as a party implicated, and the Commonwealth declared itself not ready, wanting Hercules Walker for a witness. The watchman, Tiller, was also wanted as a witness against John McGill, who is also under arrest for

the same offense.

The case of McGill was here continued to Saturday, and the examination of Jas. Macdonald commenced. The charge against him is shooting Hercules Walker. He is wounded in the right leg behind the knee, and the case was entered into with the understanding or admission that Macto with the understanding, or admission that Mac-douald fired at Walker while the latter was firing at Alex. Gilmore with a gun.

witness. He testified to being in company Carter Tiller, and —— Perist, when they m Alex. Gilmore and others just in front, of the Ti ner Hall. Gilmore asked witness to take a drink which he refused, and then Gilmore cursed the watch as a thieving set, and retracted the next moment, saying he asked his pardon, but that Tiller was a two-faced son of a b——ch. This witness further stated that l'ender and Macdonald were in company of Gilmore, and while his head, the witness', was turned, he saw Til and shoot at Tiller. The latter also had a out. The accused, Macdonald took hold of Gil-nore to keep him away, and the witness then called on Eateliffe to help quell the disturbance. He then turned round, and seeing Hercules Walker close by, and taking him fur a friend, beckoned him to come up, and he came with a double barreled gun, ready for the fray. As he advanced the witness called on Pender to help

him, and as Walker advanced Pender pointed a pistol at Walker, and the latter shot Pender.— The accused, Macdonald, then drew a revolver and fired several times, evidently at Walker. Dr. Gilpin was examined, and saw the fray across the street, and saw McDonald firing at Walker; saw oue shot, and then saw him point his pistol several times. The witness saw Walker fire his gun at Pender, and also saw him shoot at Alex. Gilmore with the gun, and several times Alex. Gilmore with the gun, and several times with a pistol. He saw Walker take deliberate aim at Gilmore with the gun and fire, a shot evidently hitting him on the head, as he shook his head and threw it up. Then he and Walker exchanged shots with their pistols. Previous to this Walker came up to the watchmen, Tiller and Sale, and offered the gun to Tiller, who told him to shoot and he shot Pender, who made no dame to shoot and he shot Pender, who made no dame. to shoot, and he shot Pender, who made no dem onstration, and the witness did not see Pender have any weapon. The witness at the first of the fray thought he saw Tiller raise his cane to strike Gilnore, and the latter knocked him down. Tiller and assumed a threatening attitude, waving Gil-

something from his pocket. While the shooting was going on the accused was seen at an angle with the others, shooting at Herc. Walker. The prosecution here rested the case.

Mr. J. H. Davis was called for the defense, and stated that he did not see the origin of the fray. He stood at the door of Walker's stable and saw the parties across the street at Turner Hall, and saw McGill with a pistol in his hand, and Tiller stand ing in front of the Turner Hall with his cane ele vated. Then Pender pushed Tiller down, and after he got up Gilmore shot at him. Tiller sunk down with his hands to his abdomen aaying, he was shot, he was killed. Walker then came with his gun, and Tiller called to him to sh them men. He advanced and ahot Pender, who fell dead. The latter had a pistol in his hand, but did not point it, or attempt to use it. The wit-ness then saw Walker advance to Gilmore and

mere away with one hand and attempting to draw

Macdonald, who were going np atreet, and saw Walker fire the gun at Gilmore, taking deliberate aim, knocking the latter a hat off. Then Macdonald fired at Walker.

W. G. Reasor testified that he saw the parties, and stated that it was remarked that Alex. Gilmore was on a spree. He went up to him to endeavor to take his pistol away, but he didn't sneeds deavor to take his pistol away, but he didn't succeed. Young Watta then attempted to take Carter Tiller away to stop the fuss. Tiller refused and said he wouldn't go away for any such a son of a h—h as Alex. Gilmore. The latter said he wouldn't take that from any one, and struck Tiller on the chin. The latter stumbled, and after he got up he attempted to draw something, when Gilmorejerked away from the witness, who was endeavoring to take his pistol away, and fired at Tiller, saying, take that. After that Walker came up, and offered the gun to Tiller, who told him to shoot, but still held it towards him, but he refused, and then Walker fired at Pender, who was leaning and then walker fired at Pender, who was leaning against the house, making no offer of fight whatever. He fell exclaiming, "oh Lord, I am killed!" The witness did not see Macdonald making any demonstration, but stated that he had a single-barrelled pistol. The case was here aubmitted to to the Court without argument, and Macdonald was held to bail in \$1,200 to answer a charge of felony. The bail was given.

This ended the Police business of the day, and the monthly docket was again taken up.

There was a great mixing of Black and K. N. aeasoning in the dining-room of the Commercial Hotel, at Saratoga, one evening last week. The Republicans and Americans met in caucus to nominate candidates for local offices, against the Democracy. The crowd had just got around the table where the officers were, and the Secretary had elevated himself to read the ticket, when the floor timbers beneath gave way, prcipitating the whole meeting, numbering some hundred persons, into the cellar, together with chaira, tables, stove, and nearly all the crockery and glassware of the house which was naed on the table. No one was seriously injured, though the tender-shin portion of the party suffered some "barking," and "great cry and some wool" were heard and felt in the cellar for some time. The damage called for nearly all the corruption fund, so that the Opposition must have been short of funds at the election.—Rochester (N. Y.) Union.

Kentucky State Agricultural Socity. [Correspondence of the Louisville Conrier.]

FRANKFORT, April 7, 1969. Editors Louisville Courier: The State Board have ust adjnormed after a laborious session of twentyfour hours, in the course of which time, more work was accomphished than is often got through with in the same period. The Board is composed of practical men throughout-stock-raisers, cropmakers, fruit-growers-and the zeal with which they work in the good cause of agricultural industry and developement, is equalled only by the wisdom with which they administer the affairs of the Society. The President, Corresponding Secretary and Treasurer were all present, and only

The main business of the meeting of the Board at this time was the preparation of a premium list for 1859, and the location of the next fair.—The former duty was accomplished most judiciously. Many premiums were raised in amount some were dispensed with altogether, and to many, which were left the same in amount as last year, was added a copy of the first volume of Col. Propositions for the fair were made from Lex ington, Paris, Mayaville and Germantown. There was much difficulty in deciding between them, but, after long deliheration and discussion, the terms of the Lexington proposition were regarded as the best, and the fourth annual fair of the Kentucky State Agricultural Society will consequently be held in that city. The pride of the Fayette people is fairly up, and, with an liberal and compensations. people is fairly np, and, with ao liberal and com-prehensive a preminm list as will soon be pub-lished, the finest fair that has ever been heid in Kentucky may be anticipated for next antumn, in "the heart of Blue Grass."

The time fixed for the fair is the 13th, 14th, 15th, 16th and 17th of September. Growing crops look well in this region, and the armers are all in good heart. The fruit hereabout has been "scoiched," but of killed. Yours, &c., ot killed.

It will be recollected that Corouer Dean removed the card from the box, and on the opposite side found printed thereon: "From W. S. The announcement of this act tends to strengthen the suspicion that the remains in question are those of Mrs. Brennan, for abe had friends residing near this store, and was in the habit of frequently visiting them. SHOCKING OCCURRENCE.—We have been turnished with the particulars of a most shocking case of infanticide, which transpired on Blue Island Avenue on Sunday last. As nearly as we could gather the circumstances, we are enabled to lay before our randers the following —On Saturday night a female, named Hunde Benno of Italian hildren were born the mother was seized with and called in friends, who, by a great deal of ex-ertion in the way of administering soportices and soothing remedies, succeeded in quelling the con-vulsions, and, as was supposed by those in at-tendance, getting her into a sleep which would prevail until the advent of her husband, who had been sent for. One only of those called in as as-sistants remained with the young woman to act as nurse, and from the influence of the intense excitement, we suppose, actually allowed them ed, tossing and throwing one of the little ones ound fro in a state of wild frenzy. Immediate neasures were taken to secure the babe, but the east approach of the two watchers increased her avings learfully. Before the arrival of aid the same mother had seized one of the infants with ner teeth, mangling and tearing the flesh from its seck and head in such a horrible manner, that bate in the least until the arrival of her husband, ho was the only one she recognized. We are in rmed that Mrs. B. is subject to fits, which have eeu known to last for two and three days at a

time, but never, except in this case, exhibited any such raving symptons.—Chicago Herald, 6th.

The peison used was arsenic, and was put into cream used at supper, by a negro of the Doctor's, named Billy. All the family including Doctor Junkin, Mrs. Fishburn and her child Miss Fishburn, George Junkin Jr., and a young student named Anderson, were poisoned, but the dose administered was ao large that it acted as an emetic, thus saving their lives. All the sufferers are now well. Billy has been arrested, examined and sent on for trial.

THE WHEAT CROP. - Reports of the wheat crop The Wheat Crop.—Reports of the wheat crop (says the Cincinnati Gazetta,) continue favorable. There are some exceptions, of course, but generally the prospects are quite encouraging. The Illinois papers agree that there is a probability of more than a general average in the State. In Michigan the prospects are equally favorable.—These remarks also apply to Ohio and Western New York. From Texas the accounts are exceedingly flattering. Wheat is in fine condition. Corn is looking well. It is five or six inchea high, and has received the first plowing. The season in is looking well. It is needed in the dealers, and has received the first plowing. The season in that State is the ee weeks earlier than usual. The forests have assumed a green hue, and the fruit trees are covered with young fruit. In Louisiana wheat is in good condition, and promises well.

ANOTHER FEGITIVE-SUCCESSFUL ESCAPE .- TOS city of Newport had a distinguished arrival on Saturday last in the person of a man slave, be nging to a gentleman by the name of Martin, relonging to a gentleman by the name of Martin, residing in or near Cynthians. Sometimes and Martin hired his services to a farmer in that region named Trimble, with whom he remained until Friday last, when he left for parts unknown, a district of country he was aware he could reach by the nuderground railroad at Cincinnati, and rived here on the next day. Mr. Martin, the owner, was not aware that his slave had escaped until Tuesday morning, when he immediately took the cars and came down to

Pike's Opera House, at Cincinnati-The people of Cincinnati are having a good time at their magnificent Opera House, built by Samuel N. Pike, Esq. Strakosch bas been entertaining them for three weeks, with his grand troupe, and expects to continue in their good favor for s fortpight longer. Those who have not seen the house nor heard the music nor counted the cost, can have but an imperfect idea of either.

The Opera House is without doubt, the mos ample and complete in this country, and we are in clived to think it surpasses anything of the kind in Europe Such a work was never undertaken and completed in the New World by a single individual, and perhaps not in the Old World, for such things are usually done by companies and corporations that have more money thus to invest than individuals.

The following are the dimensions of the principal Opera Hon-es in Europe, the figures showing the depth of the auditorium from the curtain to the on posite wall:

are each longer than Pike's, at Cincinnati, and they are also longer than the Academies of Music at New York and Philadelphia, but neither of them are so wide. The auditorium of Pike's is ve feet in length by we in breadth, with a height of 52 leet from the floor of the parquette to the crown of the central dome. It is depicted as follows by a cotemporary, whose description is emineptly just

nameter, richly ornamented and gilded, and sup-porting a skylight. Within this donie, and di-ectly below a series of panels filled with bas clicis of eminent composers, are three hundred pets of inglit; also the means of a perfect ventila-tion. Upon the ceiling surrounding the dome is a compartment of twelve gorgeons pictures in deep, and frames, gi.ded, representing eight of the alasses and four Bacchantes. Ornaments in unitation of bus reliefs divide the Muses. The Sactuates and Floras, in richly ornamented oval ranges, term the corners of the compariment of the corling, which gracefully dies, by means of majestic cove, lute a massive cornice starting from the base of the upper gallery, the cove being highly ornamented with basso relievo portraits of emittent composers and classical poets-English, German, and Italian. From this cornice, as from that of the dome, spring several bundred jets of light, to throw their soit radiance over the broad here of the ceiling, which, even in the matter-of-lact glare of day, is a miracle of harmony and

The ironts of the different tiers of boxes are rangule in the character of their decoration, but are equally remarkable for an amazing amount of cost') ornamentation, worked into a grand and harmonious whole. The lower tier, which forms the line of the parquette, is ornamented with a balustrade, broken by raised panels relieved by bas relief. The second tier is richly ornamented with Cupids in bas relief, supporting a centre, or enteta, from which depends a gilded chandelier of curious device. The third tier is ornamented with a bold and careless grouping of musical in-struments, in bas relief, divided by projecting struments, in has refler, divided by projecting relians, from which depend chandlehers similar to those of the second tier, the whole richly gilded. These chandlehers in tront of the boxes, together with those of the laterior lobbies, dome and cornice, are capable of completely flooding the house

The columns supporting the boxes are richly namented with spiral festoons, and bighly elaborate capitals and trusses, glittering in gold.— The covering of the seats is crimson plush for the first and second tiers, and enameled leather for the third. The parquette is furnished with horself half-arm cane-seated chairs, of carved oak. The interior lobbies, np-stairs and down, together with the passages into the parquete and boxes, are covered with rich tapestry carpets, in harmony with the ceilings and walls.

This magnificent department is capable of seating 8,000 persons, and affords ample room for onethird of this number to stand, making its capacity sufficient for 4,900 persons. The whole building, which has a noble front of five stories, with iuterned arrangements suited in every respect for both the andience and the actors, has been erected at a cost of nearly half a million of dollars. It has been a complete success from its opening under the management of Charles M. Barras, Esq., whose taste and genius has been equal to every

The troupe now at the house is the same that was in our city a few weeks since. That our readers may know something of the cost of keeping up a luxury of this kind after erecting a house at an outlay of balf a million of dollars, we subjoin the sums which Strakosch pays his principal sing-

Here are \$10,700 per month paid for the principal singers. To this must be added the less famous of voice, who fill up, and the chorus, the orchestra, etc., etc., which cannot cost far short of another \$10,000 per month, especially if traveling expenses be added. It, therefore, appears that the opera is very decidedly an expensive lux-ury, not to be afforded by everybody. The Cincinnatians, of course, will enjoy the thing, but whether Pike will make money by his investment in the house, or Strakosch get rich by supplying such costly music, is another matter. We are very much inclined to think that all concerned will come to the conclusion that it don't pay. Yet the Opera House is an ornament to Cincinnati, and an honor to Mr. Pike. It would ornament any city, and be an honer to any huilder. There is nothing like it in this country, and nothing supe-

rior to it in Enrope. OLDHAN COUNTY .- We are requested to say that Rich. T. Jacob, Esq., has yielded to the call made upon him so far as to consent to be a candidate for the Legislature in Oldham county, subject to the decision of the Democratic County Conven Mr. J. is a gentleman of fine intelligence and good ability, of popular manners and address and will make as faithful and efficient a legislator

as any gentleman in the State. We are reliably informed that the fruit in the bottom lands in Indiana are as yet uninjured. This is gratifying intelligence, for if the fruit in the flat lands has escaped, it may be reasonably expected that, notwithstanding the recent gevere chines. seamstr weather, we may yet have a bountiful fruit sees sou.

In the Courier of the 6th inst. appeared the fol-The gallant Colonel, who commanded the

The gallant Colonel, who commanded the Locofoco forces in the late contest, takes his defeat very hard.—Lou. Journal.

The gallant Col. referred to, was raised among the bonest men of old Bourbon, where fraud and trickery at the polls is held in as much odium and disesteem as to swindle at the card table. No doubt the Col. did take the defeat of his party very hard, particularly when he reflected upon the base and dishonorable means resorted to, to bring about that result. "Up guards and at'em," was slightly altered by the "commander in chief" to up ruffians and at 'em—charge upon the defenceless and unarmed Dutch and Irish. Worthy heroes, and wortby to be used hy such a "commander-in-chief" der-in-chief!

Blauton Duncan has seen fit to appropriate the bove paragraph exclusively to himself, and to enounce the author through the columns of the Louisville Journal. He has thus taken rather a novel and decidedly a public way of disposing of what he construes into a private and personal insult. He should first have made application at this office concerning the offensive paragraph, and if he failed to get the satisfaction usual among gentlemen, he might then have resorted to denunciation in the press. In spite of his conduct, however, in pursuing the course he has chosen, the name of the author of the paragraph either in person, by note, or through a friend.

to which be has taken offense is yet at his service. He can have it by application at the Courier office Of course, gentlemen cannot bandy epitbets under such circumstances. If the paragraph in question was an insult to Mr. Duncau, he cannot wipe out the stigma by a retaliatory card, nor resort to a course that will place him in the offen. sive. The proper course, to be pursued in such matters, is well understood by those who would act as gentlemen; and if Mr. Duncan did not understand it before he now has no excuse.

Another Voice from New Jersey-The Hon. James Guthrie. We have already copied from the Tine American, published at Trenton, N. J., a first-rate article in behalf of the llon. James Guthrie for the and Market streets. Presidency. In the Mount Holly Herald, of March 11st, another New Jersey paper, we find a similar article nearly a column in length, in behalf of the same distinguished man, for the same high office. The crowded state of our limited columns will ot permit us to copy all that we find in our ex-

changes upon the subject. We regret this, be-cause we would like to have Mr. Gutbrie's friends at bome know all the movements for him abroad, and vice versa. As It will not be possible, how. ever, for us to reprint all we find, we must content the hoops being so very elastic and pliable, that ourselves with occasional short allusions to long

There is no doubt that Mr. Guthrie has strong riends, and many of them in the State of New | ning from six to thirty hoops, including Misses' of Jersey It is thought by many of these, as well as all sizes ome here and elsewhere, that be is the only South ern Democrat in the nation, at this time, that can carry New Jersey in a Presidential contest. The same views are entertained of bis strength in New York, Pennsylvania, Indiana, Illinois, and California. And these views are held, too, by Fulton and Floyd streets. knowing men who do not rashly calculate chances

There is reason in these opinions. Mr. Guthrie has been accumulating the strength of a prominent private citizen of late, while some of the leading politicians of the land have been losing. He left the Treasury Department of the vation two years ago, with the fame of an administration of its affairs that will be mighty in a l'residential campaign, amid the wrecks of the finances of the country caused by the panic of 1857. Indeed Mr. Guthrie Is a mighty man by nature, with a name made yet more mighty by his deeds as a private citizen, a politician and a patriot.

MASSACHUSEITS ENGAGED IN THE SLAVE TRADE. MASSACHUSEITS ENAGER IN THE SLAVE TRADE.—
A recent letter from China details the fact that now, as in the earlier days of our country's history, New England is the great slave carrier, and Massachusetts, the hot bed of Abolitionism, foremost in the work. The letter to which we refer is from an otticer on bosid the U. S. steamship Mississippi, which, at the date of ibe letter, Jannary 1sth, was lying at Whamipoa. The writer says:
I am sorry to record the fact that another Massachusetts ship, the Live Yankee, of Boston, Capt. The anditorium is ninety-eight leet wide, ninety-eight feet from the cartain to the back of the boxes, and eight-two feet from the floor of the parquette to the crown of the done. The tiers are three in number, with lofter ceilings between than we have ever seen before in an Opera House, which gives to each gullery a very light and elegant appearance. The ceiling is quadrangular in form, centered by an octagonal dome, 35 feet in diameter, richly ornamented and gilded, and suppared to the color of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two feet from the floor of the boxes, and eight-two floor of the ships, or nearly all of them, engaged in this new tradity, bail from moral Massachnsetts that equally all of the ships, or nearly all of them, engaged in this new tradity, bail from moral Massachnsett riminal as the African slave trade?

lowing Certificate of a cure of overtwenty years' standing:

M. T. Helmdoln—Dear Sir: I have been troubled with an affliction of the Biadder and Kidneys for over twenty years. I have tried Physicians in vain, and at last concluded to give your Genuine Preparation a trial, as I had heard it highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects, and feel much better than I have for twenty years previous. I have the greatest faith in its virtues and curative powers, and shall do all in my power to make it known to the afflicted. Hoping that this may prove advantageous to you in assisting you to introduce the medicine.

I am truly yours, M. McCORMICK.

CALIGRAPHERS AND CHIROGRAPHERS .- Accountants, merchants, bankers, reporters, editors, authors, officials, professors of penmanship, and the public generally, are unanimous that the BEST GOLD PERS are now made in Louisville. For fineness and clearness of stroke, permanence of elasticity, and above all for that durability that should characterise a Gold Pen, they are now unrivalled. Being made exclusively for the retail trade, every pen is passed under the severest tests previous to being offered for sale.

Attificial Light in the World.

Attificial Light in the World.

Attificial Light in the World.

The Vesper Gas Light has won for itself a reputation for elegance, economy, safety and simplicity, far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light, it possesses a decided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily triuming of wick, and the construction of the fixtures is so simple that it is not limite to get out of order, and a child can manage it readily. The gas burnt in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor while burning, aa, by a simple contrivance, the vapor of the oil is mixed with the atmosphere, producing perfect combustion and a most intense light. The light has been pronounced, by those who have had it in constant use for months, as most pleasant to the eye wille reading or sewing, there being no likekering or unsteadiness in the flame. The Vesper Gas lightly portable, and can be used in town or country—in fact, wherever artificial light is required. The fixtures themselves are adapted in styles to suit all asses, from the plain slogle light burner to the most costly chaudeller. Each chandeller is perfect in itself; there is no outlay to be made for service pipes. The gas is generated in the burner, and all fixtures, from the cheap single light burner to the expensive chandeller, are miniature gas works in themselves. They are sold at prices which do not exceed the cost of ordinary gas fixtures of similar siyies and ornamentation. A price list will be sent to any address on application.

MERCHANTS
Visiting Louisville should not fail to procure the Vesper Gas fixtures for their stores.

CHURCHES, HOTELS, PUBLIC HALLS AND PUBLIC LIGHT.

CHURCHES, HOTELES, PUBLIC MALLS AND PRIVATE RESIDENCES throughout the State can now be fitted up with those elegant and convenient chandeliers, and other beautiful gas fixtures, which add so much to the appearance of such places, and to the comfort of the home circle, and which, heretofore, could be used only in those favored districts embraced within the coal gas limits of large cities.

idea. The limited space of an advertisement precindes the naertion here of the sumerous testimonials of approval we have received from all quarters. Suffice it to say, citenific men and others who have examined and thoroughly tested the merits of the Vesper Gas light, prosounce it the best and cheapest artificial light now known. nown.

The proprietor, in calling tlattention of the public to this preparation, does so with Aceling of the utmost confidence in its virtues and adaptation: o the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparation extant. The testimony in its favor given by the most prominent and well-known Physicians and individuals in all parts of the country is immensed and a careful perusal of the Almanac, published annually by the proprietor, and to be had gratis of any of his Agents, cannot but satisfy the most skeptical that this remedy is really deserving the great celebrity it has obtained.

THE RIVER was at about a stand, or risi slowly last evening, with 6 feet 8 inches water on the falls for steamboats. During the previous 24 hours the river had risen 6 inches at the head of the falls, with 9 feet 9 inches in the canal by the mark. The weather is clear and rather mild. At Cincinnati yesterday the river was reported falling a little at noon, but the mail boat yester-day reported the river rising pretty fast up to the departure of the boat, with a rise reported from the Gnyandotte and Big Sandy, and 11 feet water in the Kanawha. The river at Pittshurgh was

low and still falling.

The officers of the mail boat report Kentucky river rising fast at the mouth, sending forth on its waters an immease amount of drift wood, trees, etc., a sure token of a sudden and rapid freshet

PILOT OF THE DAVID GIESON SUSPENDED .- The PRIOT OF THE DAVID GIRSON SUPERNED.—The decision of the Local Inspectors, in the case of Mr. William Irwin, the pilot who was at the wheel of the David Gibson, at the time of the collision with the Holmes, is published in full in the Cincinnati Gazette. The license of Mr. Irwin has been revoked, and he is to be prosecuted under the laws of the United States, for criminal negligence. The offense, if found guilty, is manslaughter. The testimony of officers of the Nat Holmes proved that the boat had stopped a mile above the other boat, and was hacking at the time of the collision. This was corroborated by time of the collision. This was corroborated by the carpenter of the Gibson, which is as follows: William Scott, who was on the forward part of the birroane deck of the wibson, and forward of the birroane deck of the wibson, and forward of the pilot biuse, is clear and positive, that when he first saw the Holomes counted down, she was a mile off, and when she stonged her engines, and commenced ficating, he saw her pitchily he also states that the gave the first signal, and a.r. es in every particular with the capital and pilot of the Holomes, in their testimony; he also states that the night was not a bad one to run, but that it was clear enough for him to see the shores; that there was a timuch wint blowing shead of the Gisson, and that he perceived no smoke blowing shead of the boat to bind the pilot, but that he could see the Holmes all the time, and the lights at Lawrenceburgh, three miles up. lue, and the light at Lawrenceburgh, three miles up. oom for four or five boats to pass between them and the

Continuation of Sickles' Trial Washington, April 7.—Philip Van Wicke was the next witness aworn. He testified as follows: I was walking on the avenue to the east of Madison place; I saw two persons, as I advanced, apparently in conversation; I saw one of them raise his arm, and as he did so the other retreated to-wards the north. I then heard the report of a pisson. wards the north; I then heard the report of a pis-tel, and ran towards them; I heard another fire, and by this time the parties had got around the corner; I followed them, and by this time I got near; saw Key lying on the pavement lifeless, and as he lay there Sickles snapped a pistol at his

Mr Brady-There were three shots fired and two snaps of the pistol; I suppose it was a revol-ver from his manner of cocking it; I am certain that Sickles came down on the east side of the street; I saw several persons after the first shot was fired, but none before; I did not see Mr. But-

terworth.

Joseph Dudrow sworn.—On Sunday, the 27th
of February, I was going west along Pennsylvania avenue, when I heard a report of a pistol, and
looking around, saw Key jump saide; Sickles raised his arm to fire again, when Key grabbed to prevent him; Sickles threw him off and fired a second shot, and soon after, a third; I afterwards saw him snap the pistol at his head; some one came, then, and seized Sickles by the hand, but he jerked it away, and exclaimed to him, "he has dishonored my bed."

Richard M. Downer sworn.—I was walking on

Lalayette square, below scene of the affray; heard two reports of a pistol, and burried toward Maynard's corner. I heard a third report just as got there; as I was going around the corne heard the pistol snap; that was near enough me, and I went back, [Laughter.] Mr. Ould—It is well you did so.

Mr. Downer, the witness, resumed—I went round as soon as the shooting stopped. [Laughter.] I then saw Mr. Key lying dead on the pavement; the prisoner said, "the scoundrel;" I saw no shots fired.

To Mr. Brady. Two minutes probably clapsed before I got up to the parties. I heard three reports of a pistol. They were not in rapid succession, but at nearly equal intervals. There was about two minutes between the first shot and these sense of the visital. I saw a single burrelle.

last snap of the pistol. I saw a single barrelled pistol lying on the pavement. Edward Delafield sworn. I was present and saw the affair. I saw Sickles coming down Mad-ison place on the east side of the street. He ad dressed a person at the corner and I then heard dressed a person at the corner and I then heard the report of a pistol and cries of "don't shoot," "don't murder me." At the second shot Key grabbed hold of Sickles, but he threw him off and fired at him again. Key then fell on his side. Sickles then snapped the pistol at his breast. He then appeared to take a cap off the pistol. Some one caught hold of Sickles' hand, but he ordered him away and snapped the pistol again. He then walked, aum in arm with some one towards then walked, arm in arm with some one towards the North. I knew Sickles, having often seen him in Congress. Mr. Brady read the testimony of the witness be

fore the Coroner and said there was a discrepancy hetween it and the present testimony.

Mr. Delafield. If that is the testimony as given in the Star, it is not correct. A number of other witnesses were examined to prove the act of killing. One Thomas E. Martin, who was present and carried Key to the Club house, testified, in the regular examination, that when he lifted Key up, Sickles exclaimed, "he has violated my bed."

The District Attorney interrupteo the witness saying, that was not required.

An officers was sworn to take charge of the jury and accommodations were provided for them at the National Hotel. The District Attorney says he will close the case for the prosecution before neon to-morrow. At near 3 o'clock the Court adjourned.

Several places have been named for holding the proposed Congress. The London Times thinks that Aix La Chapelle will finally be selected. The Paris Monteur says that Russia proposed the peace congress, with the view to prevent the disturbance of the peace of Europe. It will be composed of the plenipotentiaries of France, Austria, England, Russia, and Prussia and will meet at some neutral town. The French Government had miready consented, but the courts of London, Viennu, and Berlin, have not returned an official reply. There is no basis

agreed upon for negotiation.
The Continental letter writers describe the war-like preparations in France, Austria, and Piedont as uninterrupted. ENGLAND .- The House of Lords hus rejected the amendment to the marriage law, legalizing mar-riage with the sisters of deceased wires.

The reform debate in Parliament is progressng warmly. Mr. Bulwer had made a masterly speech in favor of the ministerial bill, denoun
